

The **Dreams on Wings 5K** is in honor of Jessie Hall of Aledo, Texas.

In the spring of 2008, little Jessie Hall, a six-year old kindergartener from Aledo, Texas, was diagnosed with Rasmussen's Encephalitis. A hemispherectomy, the removal of one-half (hemisphere) of her brain, was performed on June 11, 2008. This radical surgery was the only way to give her a chance at a normal life, free from seizures and free from this debilitating disease. There was no foundation or charity in place to seek organized support or the distribution of educational materials. Cris and Kristi Hall, along with good friends John and Caren Jennings, realized the desperate need for a foundation that deals specifically with this surgery and the lingering after effects. At that time there was nothing in place to represent these children, and so The Hemispherectomy Foundation was born!

The Hemispherectomy Foundation is a non-profit organization dedicated to providing emotional, financial, and educational support for individuals and their families who have undergone or will undergo a hemispherectomy, or similar brain surgery. It is committed to providing college scholarships, trade school scholarships, camp fees, life-aid equipment, travel expenses, and other aid as approved by the officers. We are also dedicated to hemispherectomy education, awareness, fundraising and research of the medical conditions that lead to surgery and the surgery itself.

Your generous support and participation is crucial to our ability to serve hemispherectomy patients and their families. Getting involved is empowering and provides an opportunity for you to contribute to the Hemispherectomy Foundation's commitment to serving the needs of those affected by hemispherectomy surgery.

Sponsorship Levels
